

**Altus Education Partnership
Records Management
Policy**

Approval Body	Trust Board
Date of Approval	16 December 2020

Statement of intent

Altus Education Partnership incorporating its college and school is committed to maintaining the confidentiality of its information and ensuring that all records within the trust, college or School are only accessible by the appropriate individuals. In line with the requirements of the General Data Protection Regulation (GDPR), the trust, college or School also has a responsibility to ensure that all records are only kept for as long as is necessary to fulfil the purpose(s) for which they were intended.

The trust, college or School has created this policy to outline how records are stored, accessed, monitored, retained, and disposed of, to meet the School's statutory requirements.

This document complies with the requirements set out in the GDPR, which came into effect on 25th May 2018, enacted by the Data Protection Act 2018. The government has confirmed that the UK's decision to leave the EU will not affect the commencement of the GDPR.

 - General Data Protection Regulation (2016)
 - Data Protection Policy 2018
 - Freedom of Information Act 2000

- 2.1. The trust, college or school has a responsibility for maintaining its records and record-keeping systems in line with statutory requirements.
- 2.2. The **CEO** holds overall responsibility for this policy and for ensuring it is implemented correctly.
- 2.3. The **Data Protection Officer** will advise on the management of records for Altus Education Partnership incorporating its college and school.
- 2.4. The **DPO** is responsible for promoting compliance with this policy and reviewing the policy on an **annual** basis, in conjunction with the **CEO and Principal**.
- 2.5. The **DPO** is responsible for ensuring that all records are stored securely, in accordance with the retention periods outlined in this policy and are disposed of correctly.
- 2.6. All staff members are responsible for ensuring that any records for which they are responsible for are accurate, maintained securely and disposed of correctly, in line with the provisions of this policy.

3. Management of student records

- 3.1. Student records are specific documents that are used throughout a student's time in the education system – they are passed to each school or college that a student attends and includes all personal information relating to them, e.g. date of birth, home address, as well as their progress and achievement.
- 3.2. The following information is stored on the front of a student record, and will be easily accessible:
 - Forename, surname, gender, and date of birth
 - Unique student number
 - Note of the date when the file was opened
 - Note of the date when the file was closed, if appropriate
- 3.3. The following information is stored inside the front cover of a student record, and will be easily accessible:

- Ethnic origin, religion and first language (if not English)
- Any preferred names
- Position in their family, e.g. eldest sibling
- Emergency contact details and the name of the student's doctor
- Any allergies or other medical conditions that are important to be aware of
- Names of parents, including their home address(es) and telephone number(s)
- Name of the school, admission number, the date of admission and the date of leaving, where appropriate
- Any other agency involvement, e.g. speech and language therapist

3.4. The following information is stored in a student record, and will be easily accessible:

- Admissions form
- Details of any SEND
- If the student has attended an early years' setting, the record of transfer
- Fair processing notice – only the most recent notice will be included
- Annual written reports to parents
- National curriculum and agreed syllabus record sheets
- Notes relating to major incidents and accidents involving the student
- Any information about an education and healthcare (EHC) plan and support offered in relation to the EHC plan
- Any notes indicating child protection disclosures and reports are held
- Any information relating to exclusions
- Any correspondence with parents or external agencies relating to major issues, e.g. mental health
- Notes indicating that records of complaints made by parents or the student are held

3.5. The following information is subject to shorter retention periods and, therefore, will be stored separately in a personal file for the student in the **College or School**:

- Absence notes
- Parental and, where appropriate, student consent forms for educational visits, photographs, and videos, etc.
- Correspondence with parents about minor issues, e.g. behaviour

3.6. Hard copies of disclosures and reports relating to child protection are stored in a sealed envelope, in a securely locked filing cabinet in the **Safeguarding Lead's** – a note indicating this is marked on the student's file.

3.7. Hard copies of complaints made by parents or students are stored in a file in the **Principal or Head of School's** office – a note indicating this is marked on the student's file.

3.8. Actual copies of accident and incident information are stored separately on the school's management information system and held in line with the retention periods outlined in this policy – a note indicating this is marked on the student's file. An additional copy may be placed in the student's file in the event of a major accident or incident.

- 3.9. The school will ensure that no student records are altered or amended before transferring them to the next School that the student will attend.
- 3.10. The only exception to the above is if any records placed on the student's file have a shorter retention period and may need to be removed. In such cases, **the DPO** responsible for disposing records, will remove these records.
- 3.11. Electronic records relating to a student's record will also be transferred to the students' next school or college. Section 9 of this policy outlines how electronic records will be transferred.
- 3.12. The trust and its college or school will not keep any copies of information stored within a student's record unless there is ongoing legal action at the time during which the student leaves the organisation. The responsibility for these records will then transfer to the next school or college that the student attends.
- 3.13. The trust and its college or school will, wherever possible, avoid sending a student record by post. Where a student record must be sent by post, it will be sent by registered post, with an accompanying list of the files included. The college or school it is sent to is required to sign a copy of the list to indicate that they have received the files and return this to the organisation.

Basic file description	Statutory Provisions	Retention Period [Operational]	Action at end of the administrative life of the record	Personal Information
Disciplinary and Grievance Processes				
<p>Note: The ACAS code of practice on disciplinary and grievance procedures recommends that the employee should be told how long a disciplinary warning will remain current. However, this does not mean that the data itself should be destroyed at the end of the set period.</p> <p>Any disciplinary proceedings data will be a record of an important event during the employer’s relationship with the employee. Should the same employee be accused of similar misconduct five years down the line, and them defend him- or herself by saying “I would never do something like that”, reference to the earlier proceedings may show that the comment should not be given credence. Alternatively, if the employee were to be dismissed for some later offence and then claim at tribunal that he or she had “fifteen years of unblemished service”, the record of the disciplinary proceedings would be effective evidence to counter this claim.</p> <p>Employers should, therefore, be careful not to confuse the expiry of a warning for disciplinary purposes with a requirement to destroy all reference to its existence in the personnel file. One danger is that the disciplinary procedure itself often gives the impression that, at the end of the effective period for the warning, the warning will be “removed from the file”. This or similar wording should be changed to make it clear that, while the warning will not remain active in relation to future disciplinary matters, a record of what has occurred will be kept.</p>
